EPIZONE 2014

DTU Vet organizes the 8th EPIZONE annual meeting on epizootic animal diseases 23-25 September 2014 at DGI Byen in the centre of Copenhagen.

EPIZONE - The European Research Group for Epizootic Disease Diagnosis - is the international network of veterinary research institutes working on epizootic animal diseases and plays a key role in research on prevention, detection and control of animal diseases of poultry, swine, fish, sheep, cattle, horses and wildlife in order to reduce both the risks and the harm to animal health in the EU and beyond.

See more: www.epizone-eu.net

DTU Vet - The National Veterinary Institute at DTU Technical University of Denmark - conducts research in infectious animal diseases and provides consultancy to public sectors, industry and interest organizations nationally and internationally.
